Verify common phrases

what I am selling? ✓

'Grounded In The Grind' is the ~~life~~ dream life, growth, and contentment toolkit that helps others realize their dreams and goals all while finding contentment and discipline.

what's different? ✓

'Grounded In The Grind' does not realize your goals, but teaches you how to fish and realize your own goals. It does this by providing resources that ~~assist~~ ~~ensure~~ ~~and~~ enable you to live the way you want, and get where you want to be, while getting all of the benefits along the way.

This is done by identifying your own strengths and weaknesses as well as weighing them against your own values and goals to create a development plan and guides, to ~~make~~ eliminate any uncertainty. Group and personal coaching are also there to ensure your goals are realized.

who this is for? ✓

This program is for those who know where they want to be but not sure how to get there. It is for people who want to find their own way instead of ~~the~~ ~~just~~ trying to emulate the life of another.

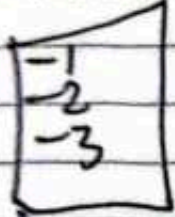

Stats:

% of discontent people ; % of those with unknown future ; % of those who actively work on things
% of those who wish for more

Learnmores

GITB is a tool that caters ~~to~~ what entails the type of person ~~with what~~ you want to be with a personalized guide that teaches you how to grow and find contentment in it. You will find what we provide to enable you to live the way you want and the benefits you get along the way will ~~be~~ trump all else.

Prod 2:

The core product is a personalized template of categories that comprise the individual. you will find ~~cored~~ material that helps you identify and prioritize your work.

Prod 2:

↳ In addition to product 2 you will receive additional resources to aid and ensure that your progress and the likelihood of your success is realized.

Prod 3:

↳ With this offering you will receive group access with other like minded individuals, including myself in addition to access to my blog to see which tasks I am working on and my journey.

Group

↳ With this offering you will have access to a group full of other individuals working on similar or different tasks where you can assist and mentor each other keeping each other accountable and enjoying the benefits offered.

Mentorship:

- ↳ With personal mentorship you would receive personal coaching and assistance regarding the content you are wishing to incorporate in your life. They will aid you in ways no one else can, and really accelerate your journey.

App4:

- ↳ Instead of tracking your tasks and lessons manually, you can use the app to track and record information regarding the tasks you are working on. It provides an accessible, automatic, and powerful way to grow.

App2:

- ↳ With App2, you gain access to the personal AI assistant who will aid you in your journey, making the process much easier and faster. In addition to this, you will get access to seasonal journals for more targeted short-term growth, and widgets for your home screen.

Facts:

- o Those who have direction and an idea of what to do accomplish more and have more life contentedness
- o ~~People~~ Those successful in their improvement journey harbor discipline, passion, and hard work.
- o Those who become self-aware understand their role in life and can help their communities more

Question: Total: 11E All ER +1 2.5

Questions	5/2	3/2	2/2	1/2
0-5	2.5	1.5	1	0.5

$\geq 2.5 = R$, $\leq 2.5 = A$

Go through list of questions, assign points
score at end, combine to create type

MBTI: characterizes what healthy and unhealthy self look like

DISC: characterize how you fit in and interact with others

ENN: characterizes growth and regression of self

Clifton: characterizes strengths and weaknesses and how to capitalize

GITG: Rearranges embodiment of perfection to be in proper order for you based off environment, values, goals, and weaknesses, and style of learning

↳ addresses mental health of MBTI

↳ identifies role in society via DISC

↳ ENN shows natural progression path via ENN

↳ identifies most important gaps via Clifton

↳ constructs info on who you are, how you fit in the world, what you do well and what being unhealthy is like, and what you could look like
↳ shows weaknesses and path to end goal
↳ looks based off DISC

⇒ have introverted/extraverted variants

↳ either cater based off lowest scores

I.E: empathy: 0.2 problem solving ... 0.7

↳ empathy → P.S.

OR

Type A therefore : empathy → P.S.

→ can blend the two by identifying key attributes of type A, but prioritizing by scores

↳ In this case disclaimer not fully accurate to type and this is due to inherent environmental and genetic differences of humans, and we are accounting for it
