## ENFJ:

- ↳ People lover — care about others most
- ↳ connected to all things
- ↳ loyal
- ↳ energetic
- ↳ responsible — especially for other's feelings
- ↳ self aware socially
- ↳ charming
- ↳ tolerant
- ↳ diplomatic + harmonize
- ↳ communicative
- ↳ good at reading and looking for good in others

## Weaknesses

- ↳ overly empathetic into problems
- ↳ pour effort into bad causes
- ↳ withdraw or disappointment when doesn't work out
- ↳ accept limitations of others + pick battles + realistic expectation
- ↳ overlook own needs and ignore problems
- ↳ not good at facts when feelings are involved
- ↳ accept and deal with conflict
- ↳ make assumptions to make quicker decisions
- ↳ hurt by criticism
- ↳ See things the way they wish they were — idealization
  - ↳ overlook facts that contradict their belief
- ↳ keep eyes and hearts open to find solutions to problems

## INFJ

- ↳ Independent, strong feelings, firm principles, personal integrity
- ↳ motivated by inner vision
- ↳ intuitive insights
- ↳ inspirations are important no matter what + warmth and enthusiasm
- ↳ loyal, committed, idealistic
- ↳ quietly forceful
- ↳ should only be determined
- ↳ harmonize agreement via approval and praise, promoting followers
- ↳ empathetic and compassionate — emotionally aware
- ↳ complex — sensitive, humble & reserved, hard to get to know

## Weaknesses

- ↳ impractical
- ↳ non-routine
- ↳ not tethered to reality
- ↳ focused on vision not seeing flaws objectively
- ↳ hypersensitive to criticism
- ↳ difficulty with conflicts
- ↳ tunnel vision
- ↳ perfectionist

## ENFP

- ↳ enthusiastic, full of new ideas, spontaneous
- ↳ optimistic, confident, strong sense of the possible
- ↳ very flexible, curious, perceptive
- ↳ imaginative, adaptive, alert
- ↳ initiative, outgoing, loves being around others
- ↳ combines ideas / talents
- ↳ charming, vitality, sympathy, gentle, willing to help
- ↳ avoid conflict, prefer harmony

## Weaknesses

- ↳ focusing on one thing at a time or choosing a decision
- ↳ learn to focus more
- ↳ lack discipline to execute problem solver
- ↳ need time management and personal organization
- ↳ not interested in details, information gathering / tedious

## INFP

- ↳ inner harmony, sensitive, idealistic, loyal, deep personal values
- ↳ visionary, open-minded, long vision
- ↳ open-minded, curious, flexible, tolerant, adaptable
- ↳ very firm, high standards and values
- ↳ very committed to finishing
- ↳ compassionate, sympathetic, understanding
- ↳ not interested in impressing
- ↳ enthusiastic and warm, appreciative
- ↳ avoids superficial talks

## Weaknesses:

- ↳ unaware with (logical) or dreams are out of touch, head in clouds
- ↳ overlook other points of view
- ↳ unaware of surrounding environment
- ↳ perfectionist, don't share ideas
- ↳ sensitive to criticism
- ↳ not objective enough with too high standards → neuroticism
- ↳ hard to stand up for unpopular positions
- ↳ hard to say no
- ↳ need assertion and open to criticism

## ENTJ

- ↳ great leaders and decision makers, long-range plans
- ↳ driven for competency, good at spotting flaws with improvement plans
- ↳ strive for perfect systems
- ↳ master interesting things
- ↳ value truth above else derived from logic
- ↳ systematic, theoretical, future more than present
- ↳ take charge, good organizer, strong communicator
- ↳ strict and push others

## Weaknesses:

- ↳ make decisions too hastily
- ↳ tough, blunt, impatient, insensitive
- ↳ argumentative, difficult to approach → need to listen and express appreciation
- ↳ need to stop, listen, think
- ↳ not be dictatorial
- ↳ put off emotions → may result in explosive reactions
- ↳ put on more than they can deliver → have mentors

## INTJ

- ↳ perfectionist, need autonomy, faith in own ideas, competence
- ↳ logical, critical, see application of new ideas
- ↳ not bothered by criticism
- ↳ skeptical, decisive, determined
- ↳ good brainstorming, complex and global thinking
- ↳ identify flaws, organize
- ↳ good determination and perseverance
- ↳ high standards

## Weaknesses:

- ↳ Too high standards
- ↳ unaware of self behavior affecting others
- ↳ assume things about others
- ↳ may miss things in present environment or practical weaknesses
- ↳ shared info needs simplification
- ↳ do not include others
- ↳ does not waver on unimportant things
- ↳ need to be more accepting

## ENTP:

- ↳ excitement, challenge, enthusiastic, talkative, clever
- ↳ new ideas, alert to all possibilities
- ↳ initiative and creativity, inspiring
- ↳ inquisitive, resourceful, adaptable
- ↳ outspoken and see flaws — have reason for anything
- ↳ tests limits on rules
- ↳ push others, great number of friends
- ↳ live freely and for fun
- ↳ optimistic, humorous, understand + respond vs, judge

## Weaknesses:

- ↳ ignore standard methodology
- ↳ hate routine (don't see details)
- ↳ don't prepare — dive in to fast
- ↳ talk quickly and so much
- ↳ blunt + tactless
- ↳ not considerate of feelings — insensitive
- ↳ non-committal
- ↳ interrupt, not listening

## INTP

- ↳ reserved, detached
- ↳ critical, precise, skeptical
- ↳ argumentative
- ↳ ingenious and original
- ↳ strong drive, push others
- ↳ understands concepts more than people → hard to communicate
- ↳ open minded

## Weaknesses:

- ↳ unaware what matters to others
- ↳ dismiss illogical and own feelings
- ↳ over appreciative
- ↳ fixated on minor flaws
- ↳ blunt → need to be told and asked what matters to others
- ↳ impatient with routine — don't fit projects
- ↳ high standards → inadequate

## ESTJ

- ↳ great at getting things done
- ↳ responsible, conscientious, faithful, realistic, practical
- ↳ structured, remembered, details, organizers, systematic
- ↳ driven to make decisions — usually on paper, objective, analytical
- ↳ consistent, dependable, traditional, judge others, outgoing, friendly

### Weaknesses:

- ↳ emotional and social life is not as important
- ↳ imposing standards
- ↳ not flexible enough
- ↳ unaware of impact on others
- ↳ not appreciative enough
- ↳ close-minded
- ↳ jump to conclusions
- ↳ don't see non-black and white

## ISTJ

- ↳ serious, responsible, trustworthy, well-organized, orderly
- ↳ thorough, accurate, methodical, reliable, unshakeable
- ↳ great judgement and memory, logical and systematic
- ↳ cautious and traditional, good listener, calm under crisis

### Weaknesses

- ↳ get lost in details of a project, consider alternatives
- ↳ rigid, skeptical
- ↳ not understanding of needs of others, don't express appreciation
- ↳ impose judgement on others — less assertive
- ↳ may discourage creativity

## ESFJ

- ↳ motivated to help others directly or in cooperation, practical, realistic
- ↳ responsible, friendly, sympathetic, popular, talkative, gracious, easier to please
- ↳ work hard to maintain harmony
- ↳ \* need to be appreciated for service
- ↳ \* highly sensitive to criticism or criticism
- ↳ strongly opinionated and decisive
- ↳ organized, remember details, plan off experience of others
- ↳ conscious and traditional, active social members, like responsibility, go out of way to maintain

### Weaknesses:

- ↳ avoid conflicts instead of deal with problem head-on
- ↳ value opinion and feelings of others too much
- ↳ blind to facts and path forward in stressful times
- ↳ overlook own needs, can't say no
- ↳ criticism is hard since taken personally
- ↳ pessimistic with negative outlook
- ↳ maybe bossy
- ↳ make decisions too quick
- ↳ need to be more open-minded

### ISFJ:

- ↳ loyal, devoted, compassionate, perceptive of others
- ↳ responsible, down-to-earth, realistic, quiet, unassuming
- ↳ absorb and love facts
- ↳ like things clear and explicit
- ↳ good work ethic
- ↳ accurate and systematic, conservative
- ↳ gentle, tactful, supportive, warm, and relate to those in need
- ↳ protective and devoted, service minded and committed

### Weaknesses:

- ↳ have trouble anticipating possible outcomes
- ↳ easily overworked and taken advantage of
- ↳ need to process and let others know emotions and accomplishments
- ↳ spend a long time coming up to speed
- ↳ don't relax enough

### ESTP

- ↳ active, easygoing, spontaneous, presentminded
- ↳ realistic, relied on senses, keen observer
- ↳ accept things as they are and are open-minded
- ↳ deals with situations as they arise
- ↳ good, quick situational problem solvers
- ↳ happy negotiators, willing for unconventional, good at compromise
- ↳ pragmatic, friendly, charming, popular, outgoer, outgoing, versatile
- ↳ funny, good at lightening moods

### Weaknesses

- ↳ m.o. causes chaos for others
- ↳ may lack opportunity to lack of planning
- ↳ can get over bored
- ↳ overlook and blunt to others
- ↳ may alienate do to flamboyance → crudeness
- ↳ overly bold, energy, go to time
- ↳ jump to next crises
- ↳ need time and planning techniques
- ↳ impulsive

## ISTP

- ↳ straightforward, honest, pragmatic, analytical
- ↳ unpretentious, understand nonverbal work
- ↳ curious and observant, info city
- ↳ capitalize on resources well, mechanically inclined
- ↳ self leading, egalitarian, fun, impulsive, adaptable, responsive
- ↳

## Weaknesses

- ↳ Keep important info to self?
- ↳ hard time sharing info - need to know others need it
- ↳ so good at realism, they minimize effort to the max
- ↳ indecisive, reckless, lacked commitment + goals

## ESFP

- ↳ enjoy people, zesty, playful, vivacious, make others happy, extremely social
- ↳ adaptable and easygoing, warm, friendly, generous
- ↳ concrete, trust senses and memories, tolerant and accepting
- ↳ tactful, sympathetic, liked by many, good at reconciliation
- ↳ conversationalist, spontaneous, and charming

## Weaknesses

- ↳ responsibilities may suffer
- ↳ easily tempted and distracted
- ↳ lack of discipline
- ↳ don't plan ahead
- ↳ make decisions without consequences
- ↳ don't see through others, don't say no, not tough minded

## ISFP

- ↳ gentle, caring, sensitive, warm, enthusiastic, super reserved
- ↳ patient, flexible, easily get along with others
- ↳ non-judgemental, accepting, tolerant
- ↳ don't plan, enjoy moment, talking it slow
- ↳ artistic and aesthetic, loyal followers, need harmony, sensitive to career

## Weaknesses

- ↳ overly altruistic for others
- ↳ don't look on future
- ↳ don't understand complexities
- ↳ don't prepare in advance
- ↳ vulnerable to criticism
- ↳ gullible / too trusting
- ↳ bad judge of character

4 temperaments  
SS, SP, NT, NF

SS - high level responsibility & stable with clear cut chain of command and rules

SP - free to act on impulse, her- and now, autonomy, variety, action, immediate results, pleasure

NF - learning and growth, personally meaningful, not competitive, high participation, humanitarian

NT - autonomy, variety, intellectual stimulation, generate ideas, seriously, capable connectors

Dominate and auxiliary functions play information gather and problem solve

3/4 are the same but used

healthy people use aux to help main

tread carefully on landmines avoid your weakness

the way you are raised how comfortable you are with functions and your growth  
↳ instilling your type on kids

develop S: cook, build, art + craft, music, exercise, hike/camp, garden, non-fiction

develop N: art, design, religion, research, brain storm, books, creative writing, planning, fiction, travel

T: negotiator, strategy, debating, consistency, universally elevating standards

F: volunteer, mentoring, past relations, initiating reunions, therapy, conversation, journal

to develop other types try solving problems different types

Optimal!

↳ sensing clarify, realize, facts → intuition generate a better understanding → thinking steps, consequences → feeling effects on others

main goal for growth:  
↳ adapt and leave comfort zone

Perfection:

- SP - mastering craft → don't obsess on mastery
- NF - perfect system → always improve, realize it can't be reached
- NT - Utopian human → ideals are impossible
- SJ - as orderly and rule as possible → rules are made to be broken and limit creativity

[I - A - confident individualism  
P - A - People mastery → confident in abilities and expressive  
I - T - constant improvement - successful perfectionist driven  
G - T - social engagement - social status opinion]

## \* Add Big 5

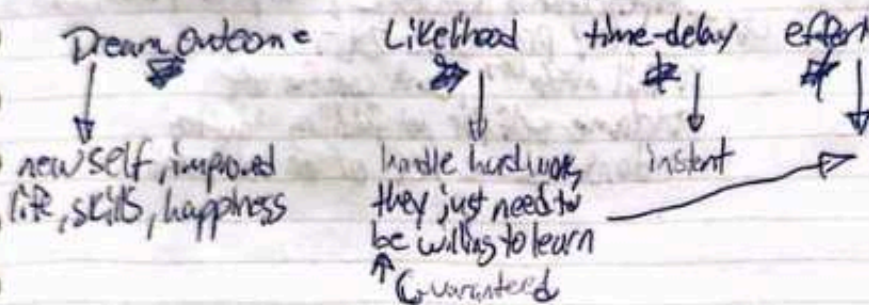

- Extraverts have stronger immune systems
- Everyone needs empathy
- Introverts spend energy maintaining friends
- conscientious people eat the healthiest
  - reactive: stressors when they come upon happening
  - proactive: planning to mitigate risk
  - proactive: alternatives and weakness to opportunity
- people view religion as not being open
  - ↳ NT types
  - money:
    - NT - forgets little things, don't care about money - but money-related
    - NF - give money ethical spends, don't keep books
    - SJ - spend prudently and save, risk adverse, their methods
    - SP - mostly spendy, risky, not future
  - loyal
    - SJ - loyal max
    - NF - loyalty tied to emotions - fickle and romantic
    - NT - loyal to thoughts & others must meet them
    - SP - look for something new,
  - know yourself & be open to change → collaborate → grow with differences
  - verbs:
    - ↳ NT - original thinking, novelty, learning
    - ↳ NF - creative ways to uplift others
    - ↳ SJ - execution, maintaining order, finding a way
    - ↳ SP - virtuosos

## Failure

- A - how can I be better prepared next time?
- T - How did this failure serve me, what did I learn from it?
- E - how can I seek support without pre-empting myself from moving on?
- F - who can offer me assistance or support?
- N - Am I taking consistent action towards my goal? Am I missing red flags?
- S - Am I giving up too soon?

If you are adaptable and fluid, catering to norms is not disengaging  
 forget out of comfort zone don't stay away too long  
 identify and make sure your core values are met

- o Give each small talk a purpose → make it a goal to be good at it
  - ↳ prep with a plan
  - ↳ introduce others and let them talk

## Ending/Doin' habits:

- ↳ E - rely on others for accountability
- ↳ I - set intentions and make frequent assessments
- ↳ N - Lean on or get rid of intuition
- ↳ S - make incremental small changes
- ↳ T - hold your thoughts and plans accountable
- ↳ F - 'Empathize' with yourself and encourage and self-love yourself
- ↳ J - remove decisions (plan) your rather
- ↳ P - Be more rigid and don't switch to something else

## Mental health

- ↳ INTJ - read history book, quiet with loved one, classical music
- ↳ INTP - immerse in something you enjoy, text a friend → be mindful
- ↳ ENTJ - find new skills to learn, outline goals with interesting subjects → plan the day/week
- ↳ ENTP - get into unfamiliar situation and get wild → loosen up
- ↳ INFJ - nature walk, simple repetitive tasks → self-care
- ↳ INFP - myths and mystics, pet an animal → childhood favs/comforts
- ↳ ENFJ - (help others/yourself) rearrange house, go out atc
- ↳ ENFP - (emotionally reset) play outside, go to fave space
- ↳ ISTJ - (simple routine chores) routine and alone time
- ↳ ISFJ - (old hobby + hobbies) to do list, prioritize self

- WRESTJ - recognize you need a break, do a few things, actually take a break  
 WRESTJ - talk with loved one, go through old photos  
 WRESTJ - fix something, change it up, do what you want  
 WRESTJ - get inspired, go to country, tell others soft for day  
 WRESTJ - active, go out, watch sports  
 WRESTJ - vent, dance, dress up

o feelers take criticism harder, turbulent project onto critics

### Health

- WNT - healthy  
 WNF - self-worth  
 WSS - set example  
 WSP - find what works for you

- o - increase ability to feel outside  
 o - don't be affected by others' reactions, be proud of who you are

### critical

- WNT - push self to limits, too hard on self  
 o - inability to relax, growth  
 WNF - overwhelmed by other problems and self  
 o - perfectionist idealize, accept compliments, goals  
 WSS - stay productive 24/7  
 o - fail miserably, don't care for self  
 o - blame self for not fulfilling 'duties'  
 o - don't blame self or be obligator

### Life Purpose:

- WNT - Pick one or two things of life that fascinate you most  
 o - do skills inventory -> personal philosophy  
 WNF - find something bigger than you, go within - self-reflect on wishes, what we are, and utilize your gifts  
 WSS - list out what you value most in life, map out what actions need to be taken to realize these, commit and review often  
 WSP - give a name to what you do or want, stay flexible and pursue what you want.

- o practice appreciating good experiences not just dismissing bad ones
- o don't go into exchanges with too many assumptions
- o humanize everyone you deal with
- o respect individual systems
- o explore options cheerfully

Roots, anchor, rock/mountain, compass, house  
 grindstone, gears, hammer/awit, mortar + pestle, path, hourglass

Associate, extended, aware of environment, people, and negative thoughts  
 o - observe negative thoughts, be patient with self

## helping

- F - subtle practical help, distraction
- E - engaging help, dynamic settings
- N - join thoughts, optimism
- S - find uncomplicated solutions, tap into their imagination, focus on real distraction
- T - resources, tech thing with
- P - encourage to discuss feelings, harmonious group atmosphere
- D - help them restore order, give security and schedule
- P - support them spontaneously
- A - follow their lead, give distance
- Tu - give positive push, light-heart lifting

## stress

- I more than E
- N more carefree than S
- F - T is every thinking  
Lurkline on others, claustrophobia
- S less stressed but higher worst-case
- P more stress but carefree
- A better than Tu

= NT Strong resistor  
NF turbulent  
SS least overwhelmed  
SP Stressful but carefree

## Loneliness

1. spend more face-to-face time with others
2. Develop and use cognitive empathy
3. make and keep plans
4. consider what could go right in social situations
5. reevaluate expectations and strengthen current relationships
6. see the value in being alone
7. know you're not actually alone

## Financial literacy:

- INTJ - learn more
- INTP - sets goals
- ENTJ - follow interests
- ENTP - identify trouble areas and be accountable
- INFJ - get counselling
- INFP - learn on others for help
- ENFP - spend less on social things
- ENFP - actually save
- ISTJ - diversify
- ISFJ - put frugality to use
- ESTJ - stay up to date
- ESFP - get out of comfort zone
- ISTP - autopay
- ISFP - follow markets
- ESTP - simulate and weigh risks
- ESFP - ask peers to mentor

### accomplish goals:

- INTJ - add a little independent work, reduce distast to important others
- INTP - add chance to collaborate, reduce perfectionism
- ENTJ - add more celebration, reduce sameness
- ENTP - add more focus, reduce need to be center stage
- INFJ - add a few new variables, reduce to do list to 3
- INFP - create a giving plan, reduce alone time
- ENFP - check in with others more regularly, reduce unrealistic expectations
- GP-ENFP - meet a few more of your own wants/needs, reduce things that don't excite
- ISTJ - add more room for mistakes, reduce low-wolf
- ISFJ - add pleasant sensory experiences, reduce list of responsibilities
- ESTJ - consult with less influential individuals, reduce work hours
- ESFJ - have more gratitude, identify and reduce your biases
- ISTP - be more vulnerable, connect with others
- ISPP - be more familiar with your feelings, reduce self-doubt
- ESTP - be bored more, reduce your pace
- ESFP - add routine, be bored more

### Extraverted confident learner

- IA - don't get complacent, take risks outside comfort zone ask for help + welcome feedback
- IT - focus on fewer goals, pinpoint values, celebrate personal highs
- ET - catch things responsible for doubt, keep positive company, revise coping plan
- EA - practice caution, play long game, separate from panic

- turbulent are far more cautious
- we perceive envs to find out how they get what you want

- INTJ - believe there are answers to be found
- INTP - broader vision
- ENTJ - highly resilient
- ENTP - authenticity
- INPJ - empathy
- INFP - unselfish
- ENPJ - serve needs of others
- ENFP - joy of living
- ISTJ - focus
- ISFJ - kindhearted humble
- ESTJ - planning
- ESFJ - community
- ISTP - independence
- ISFP - laid back
- ESTP - talking styles
- ESFP - good taste

## belonging

- I - involves value of event, less people, and takes more time
- E - need to ensure their social groups are for right reasons, take inventories
- N - understand situation and implications
- S - people play a role which defines value
- T - beneficial to self, intellectualization
- F - interpersonal relationships, checking on feelings
- J - criteria: loyalty, if not, reject or if not
- P - need flexibility

## Travel:

- INTJ - be more flexible
- INTP - Appreciate what you have
- ENTJ - increase your learning capacity
- ENTP - balance your ego
- INFP - open your mind
- INTP - work on independence
- ENPJ - pickup practical skills
- ENFP - work on planning
- ISTJ - get a wider view
- ISFJ - increased confidence
- ESTJ - empathy
- ESFJ - improvisation
- ISTP - novelty
- ISFP - inspiration
- ESTP - budgeting
- ESFP - memories

acceptant  
# expand who you are

NT - reflect on past to learn and ask 'what if', but don't dwell and self criticize

NF - self regulate and help relationships, don't ruminate on bad emotions

SS - Use past to plan for future, don't let details run bigger picture

SP - reflection unpredictable nature and what worked, need to actually do it

# Congrats you are X% done with Y group, [review progress]

## Types of retirements:

- ↳ Bucket listers, ↳ community organizers, ↳ dedicated athlete
- ↳ family pillars, ↳ hermit, ↳ hobby clubbers, ↳ inspired creative
- ↳ life coach, ↳ lifelong learner, ↳ gardener, ↳ workhorse

## Growth:

- COINTJ - emotional intelligence and social skills, finding new hobbies
- COINTP - learn to trust, sacrifice, give, and belong in social groups
- COENTJ - empathy, listening, identifying emotions
- COENTP - learn planning, stability, and consistency
- COINTJ - not people please, be assertive
- COINTP - insecurity, self-confidence, take risks
- COENTJ - self aware of compassion, fatigue, own time
- COENTP - self-discipline
- COISTJ - more compassionate, tolerant, forgiving of mistakes
- COISTP - allow spontaneity
- COESTJ - emotional literacy and how others process
- COESTP - allow for more curiosity
- COISTJ - identify connection and relations are a skill
- COISTP - discover purpose and passion
- COESTJ - be conscious of thinking before a risk calculation
- COESTP - embracing mundanity

- feel okay asking for help
- If you prefer to be distant, be curious
- Show joy
- Offer affirmation
- 

- EA - may feel a need to prove themselves or share others, <sup>don't use talents to share</sup> glorify others, include others, don't fear rejection, eager to please and commit, speak directly (for good or bad), see problems as opportunities and willing to team up with others
- IA - live and let live, strong + honest, choose about partners, prefer independence, strong leader, good control over mindset
- ET - impulsive, people pleasing, care about relationships and partners, like talking/working with others, ambitious, drive for success/getting out of comfort zone
- IT - great deal of identity is in their success → can lead to self-doubt, can sense trouble + balance risk/reward, had to get into relationships, need to convert 'missing feelings' into positive + make sense, can weaponize restlessness, curious to others' feelings, kind + compassionate

## Leads:

- ↳ NT - Create + adapt systems with improvement, matter of fact, inventive
- ↳ NF - Ideas for higher causes, inspire others towards future
- ↳ SS - administrator getting things right, meticulous, honor protocols, protecting preserving traditional, moral and ethical
- ↳ SP - quick solutions, risk taking, big things, acting instead of planning

## Plans

- INTJ - smugness, need social grace
- INTP - incomplete ideas, plan, execute, flush detail
- ENTJ - dominating, accept others ideas and be approachable/flexible
- ENTP - argumentative
- INFJ - self-righteous, don't judge, explain
- INFP - indecisive, be more assertive and vocal
- ENFJ - overconcerned, give space, privacy, respect
- ENFP - roudy, chill out, spend money on one thing at a time, lean energy on others
- ISTJ - too rigid, be more adaptable and quick to creating routines
- ISFJ - complacency, make it known you want and deserve more
- ESTJ - in full power, make rules more tolerable
- ESFJ - gossiping, create harmony
- ISTP - unsociable, be cooperative
- ISFP - inattentive, need help reaching goals
- ESTP - rubs people wrong way with boldness, keep goals of others in mind
- ESFP - too social

## weaponize strengths:

- ↳ I - consider carefully before acting
- ↳ E - engaging opportunities with others are fun
- ↳ N - creative flourish, explore possibilities, future, vision
- ↳ S - fundamental approach for results
- ↳ T - information guided decisions
- ↳ F - enjoy others and helping them out
- ↳ P - flexible and open-minded
- ↳ J - planned, organized, thorough
- ↳ A - level headed
- ↳ T - want to strike to do best

## work life:

INTJ: explore team work  
less; push standards on others

INTP: e: listen more carefully  
i: overthink — less is more

ENTJ: relax and initiate, lower intensity  
judge others less and be more tolerant

ENTP: readily accept feedback  
challenge things less

INFJ: be more zen — are rather than should be  
assume everyone finds own way — help as needed

INFP: be assertive — ask for what you need  
come from emotions — analyze emotion before acting

ENFJ: explore other roles — diversify skillset  
avoid necessary conflict —

ENFP: pay attention to details — be aware and ready to respond  
lose focus — be mindful

ISTJ: create friends and allies —  
pushed by 'adviser' — look what feeds you not bosses

ISFJ: work-life balance  
don't stick to ideas — stay on plan or change

ESTJ: get to know people you work with — diversify mindset  
stop and smell roses — appreciate road too

ESFJ: communicate interpersonal clearly  
don't be rules police

ISTP: longer-term goals  
forget to ask — stay in loop

ISFP: trust but verify instincts  
don't ask how over why

ESTP - curiosity drive future empathy  
ignore mundane details bulldozers - dial energy down

ISFP - curiosity drive future  
ignore mundane details

ISTP leverage:

- ↳ independence drives results
- ↳ care more for first impressions

→ talk with employees, team lead  
mind protocols,

- see routine as a problem to solve and try to spice it up
- Talk and collaborate with others
- Give yourself regular breaks
- solution oriented, to solve flexible leadership

- \* Say yes to many potentials
- \* care for others feelings and wellbeing
- \* take firm, practical action

- ~~ISTP~~ - don't stay in jobs that don't make you happy
- ~~ISTP~~ - boundaries matter
- explore things you don't want to do
  - offer others what you have to offer
  - seize more opportunities
  - invest in self-growth
  - enjoy the work slow down hustle
  - believe in yourself
  - don't be negative
  - don't distract others at work
  - don't gossip
  - don't be a slop
  - don't be rude
  - don't be too critical of others

innovation requires risk

EQ:

- ↳ know your own emotions
- ↳ manage your emotions
- ↳ motivating yourself
- ↳ recognize and understand others emotions
- ↳ manage relationships

Self promotion:

- ↳ needed in crowded field
- ↳ do in low-moderate amounts
- ↳ make it a social conversation
- ↳ be simple and don't overexpose

Upskilling:

- ↳ INTS - leadership + people skills
- ↳ INTP - determine where they want to go/be and execute
- ↳ INTS - identify areas for self-improvement, plan focus every three
- ↳ ENTP - weaponize research and all angled attack
- ↳ INTJ - tech skills
- ↳ ENTP - focus on hope/inspiration/helping
- ↳ ENTP - stay on ahead of curve
- ↳ ISTJ - make sure efforts are paying off
- ↳ ISTJ - ask advice
- ↳ ESTJ - don't hyper-focus on career
- ↳ ESTJ - volunteer for and giving opportunities
- ↳ ISTP - certificates with rewards
- ↳ ISTP - hands-on, refine current skills
- ↳ ESTP - social/digital communications
- ↳ ESTP - strategic planning development

create both intrinsic and extrinsic motivators

Who is business for? - scratch own interest

↳ credit source with experts  
↳ free = paid

Scheduled audience  
↓

↳ access, content, events (exclusive with your time and access)

School: you are your communities champion for access

↳ Pick one:  
↳ Profession, Pain, Passion

↳ Pick 1+:  
↳ people like me, people I've helped before, people underserved

↳ Describe using:  
↳ Age, gender, Profession, Problem, Interest

↳ Identify good things you help them achieve  
↳ Identify bad things you help them avoid

↳ help new people find their niche

How to get a partner model:

- ↳ verified social media + presence
- ↳ reach out to 10K-100K influencers
- ↳ ask friends if they know any influencers } 25+
- ↳ get a call
- ↳ prepare for the call
- ↳ sell, repeat, scale

you can only connect dots in past and trust the future ones will

start with 3 → 10 true regulars → 1000 true fans

send to everyone, introduce, free as founding members

free group  
free → paid } → types of groups  
free + paid

paid  
Partner, expert  
Zero to hero,  
curated content

reverse engineer profit  
↳ # people per day + # user goal to choose prize

partner with influencers

demos work better than about page  
+ media

★ Use 'ManyChat' to respond to social media engagement  
↳ create reason to comment

use Goall for commission

Nretche superman

ISTP Career:

↳ what is the use of education +  
↳ hands on + spontaneous in loose unstructured environments  
with high level involvement — needs to be applicable  
to an interesting and practical  
↳ need coaching + feedback  
↳ observe someone modeling a technique and copying with feedback

↳ don't want SS settings  
↳ give themselves something to do on their own  
↳ instruction with boldness + spontaneity reaching own conclusions  
↳ quick, not slowed  
↳ group setting where to learn from others

Early  
HS  
College  
Career

↳ tie yourself to a 'reason' for learning  
↳ learn to cope with dull and challenging courses

traits

curiosity, unquenchable thirst for knowledge, how things work, solving problems,  
diverse, result-driven, self-confident, loyal

good as artists/artisan, physical labor, engineering, medicine  
↳ roles on the front lines  
↳ learn to show strengths of

relations

NT-ISTP: both work towards same goal, fill each others gaps

NF-ISTP: look at traits complementary, focus on growth, improvement, <sup>needs</sup> flexibility, vision generation (NF)/vision execution (ISTP),  
be wary of NF feelings when solving problem

- discover NF values and ask 'what if' questions

SS-ISTP: SS prefer remembering + stable, use stability as a fallback point for new change, respect their order,

SP-ISTP: get the job done, bounce ideas off each other, 'it's easier to apologize than ask permission', need their risk taking checked, don't see big picture.

growth:

Intro

↳ establish baseline for function in the world, evaluate efficiency, and decide if it is fulfilling  
 ↳ use this to find ideas for change

Steps:

- Self awareness
  - ↳ assess behaviors and are they pleasant now + harmful later?
  - ↳ what do you want now and later from life?
  - ↳ replace unhealthy behaviors
- Prioritize fairness and equality ← need views, feelings, well-being
- You're either getting better or getting worse, there's no staying the same

balance

- self-esteem: how much you like yourself, drives motivation
- self-respect - your sense of worth (values)
- self-confidence - driving force

self-esteem:

- ↳ reconcile emotions with intellect
- ↳ discover how far you can go → mastery (self-worth)
- ↳ draw the line when you have to sacrifice too much
- ↳ balance goals with relationships
- ↳ learn how to see and follow big picture
- ↳ the bad is the enemy of good

self-respect:

- ↳ driven by solving problems in flexible, choppy waters
- ↳ will create predicaments so you can solve things
- ↳ careless, disregards opinions
- ↳ reframe social/relationships as a mastery problem

Boldness has genius, power, and magic in it, but it is not

Self-confidence:

- ↳ boldness is what moves them forward
- ↳ don't be too bold and make irreversible actions
- ↳ create your own mission statement for moderating boldness

most problems ↳ impulsive thrill seeker: fully social or fully reclusive  
↳ learn to control

↳ overly optimistic  
↳ put things in perspective, don't stay in hot zones by  
↳ join forces with others

↳ emotional intelligence  
↳ learn to communicate and open up  
↳ accept own emotions and externally express

emphasize

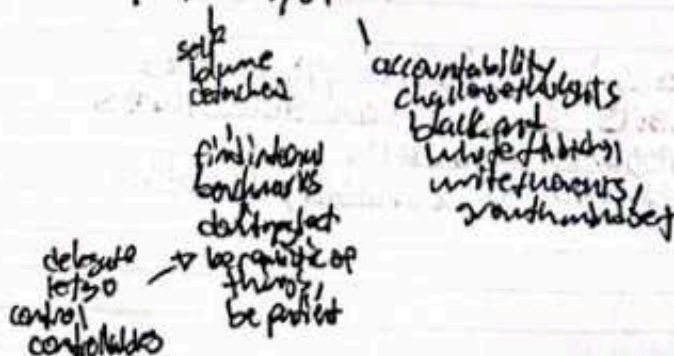

- ↳ impratization  
↳ try to close out what you start
- ↳ find niche and excel  
↳ The careful man adapts himself to the world. The reckless one persists in trying to adapt the world to himself. Therefore all progress depends on the reckless man  
↳ enjoy present
- ↳ spontaneous

how they grow → do immediate results that give purpose and refine their life

↳ figure out how to fit others in your life, plan, consistency  
check on others

Locus of control

↳ what dictates how you live life  
↳ chance, internal, others ⇒ have SW's

## Emotion Recognition

- ↳ awareness of own
- ↳ awareness of others
- ↳ emotional control in stress

↳ coping strategy: had back last word

controlling emotions

Empathy

Social skills

Emotional Intelligence

learn to express emotions, distrust

as soon as you trust yourself you know how to live

Confidence

Light vs Dark side

debt vs. truth

modesty vs. vanity

level of empathy

Sociable vs. Solitary  $\begin{matrix} s \\ w \end{matrix} =$

self-motivated,  
focus,  
highly valuing things

unfriendly,  
misunderstands  
don't ask help  
verb

Initiating vs. Reacting  $\begin{matrix} s \\ w \end{matrix} =$

initiate the others  
reaction  
know what to  
do, follow  
balance with  
others in the

misjudgments  
inconsistency  
indecise  
not strong leader behavior

Engaged vs. Reserved  $\begin{matrix} s \\ w \end{matrix} =$

gregarious / reserved  
casual or deep friends  
distrust many people  
but prefer privacy  
warmth, comfort,  
selective interest

careless  
torn between fears  
may not totally relate  
to others

low maintenance

Theoretical vs. Experiential  $\begin{matrix} s \\ w \end{matrix} =$

appreciate complexities  
intellect, needs utility  
open to possibilities  
insight + evidence  
needed

frustrated with theory or  
concerns  
reliant on facts  
potential  
overthinking  
unknowable instead of  
taking a stand

N/S creative vs. practical -

|                                        |                     |
|----------------------------------------|---------------------|
| you believe creativity with pragmatism | don't like pursuing |
| creativity to innovation               | struggle when       |
| mediate creativity and practical       | hopeless            |
|                                        | indecision          |

visionary vs. pragmatic -

|                            |                   |
|----------------------------|-------------------|
| embrace change + challenge | unrealistic goals |
| envision future            | can miss details  |
| create new avenues         | risky             |
| identify trends            |                   |

T/F direct vs. sensitive -

|                            |                               |
|----------------------------|-------------------------------|
| temper honesty with tact   | struggle with sensitive       |
| look for truth that builds | offends others                |
| frank or gentle            | not comfort in care           |
| balance feeling and goals  | relate to emotional or direct |

deliberators vs. instinctive -

|                              |                             |
|------------------------------|-----------------------------|
| gather facts before deciding | stuck and don't act quickly |
| X systematic analysis        | undervalue intuition        |
| rarely impulsive             | decided inefficient         |

rational vs. emotional -

|                   |               |
|-------------------|---------------|
| X emotion + logic | cannot decide |
| empathy + reason  |               |

J/P disciplined vs. spontaneous -

|                     |                           |
|---------------------|---------------------------|
| clear paths         | struggle to learn or move |
| firm commitments    | semi-committed            |
| future plus current | when commitment and logic |
| described but open  | not aligned - sad         |

organized vs. flexible -

|                     |                                  |
|---------------------|----------------------------------|
| well structured but | frustrated when plans don't work |
| grounded routines   | non-routine planning style       |

diligent vs. easy going -

|                               |                          |
|-------------------------------|--------------------------|
| work hard, have creative side | have relaxed enough      |
| practical no nonsense         | stressed if not balanced |
| easy going / diligent         | balance is hard          |

|      |                      |                                                                                                       |                                                                                     |
|------|----------------------|-------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
| A/Tu | flouring/ingoring =  | drawn into the past<br>engaged in present<br>learn from mistakes<br>know when to move on<br>or repeat | may not satisfy others<br>hard to relate                                            |
|      | confident/doubtful = | stable self-esteem<br>know S/W<br>believe in self<br>open to feedback<br>ventilate self-praise        | show confidence/humility<br>don't abilities<br>fully own success & setbacks         |
|      | composed/mature =    | maintain calm<br>self-regulate instead of<br>grounding presence<br>level-headed                       | emotionally distant<br>don't share feelings<br>don't know own actions<br>no empathy |

Resilience and grit  
Resilience = family coherence  
personal structure  
social support

Coping Styles: Rational, Detached, Emotional, Avoiding - can lower stress but cause problems  
↓  
root cause in moment  
↓  
mental health  
↓  
detracted coping over a long period of time can have negative health repercussions

rational may lead to you don't need help or try to fix unstable ones  
emotional needs to not blame self and process emotions immediately

### Authenticity

Optimism → general optimism is good, moderate  
pessimism is realism  
↓  
situationism

Passion for learning, curiosity, intellectual engagement  
↓  
more learning  
more curious

rationality, magic, imagination

traveling preferences, leadership, perfectionism,

intrinsic/extrinsic motivation

ambition

Learning vs Performance orientation

women want to revel in others when they are sad

relationship dynamics

parenting style

loyalty

## Big 5 + Mine

- o Neuroticism - tendency to experience negative feelings X
  - ↳ low = calm
  - ↳ Anxiety, anger, depression, self-consciousness, immorality (cravings), vulnerability
- o Extraversion - engagement with outside world ✓ E
  - ↳ high = social
  - ↳ friendliness - positive feelings, amiable, not reserved; gregariousness, assertiveness, activity level, excitement seeking, cheerfulness (positive emotion)
- o Openness - imaginative, creative, change ✓ N
  - ↳ imagination, artistic, emotional expression, adventurous, intellect, liberalism
- o Agreeableness - cooperation and social harmony ✓ F
  - ↳ high = interest in others, pleasant
  - ↳ trust, morality (lying), altruism, cooperation (compromise), modesty, sympathy
- o Conscientiousness - regulate impulses ✓ J
  - ↳ high = accomplish goals
  - ↳ self-efficacy (accomplish things), orderly, dutiful, achievement (goals), self-discipline (persistence), cautionness (think before act)

- H — L
- openness - prefer methodical — OS
  - conc - more flexible and time mgmt — P
  - extro - prefer independence — F
  - agreeable - forceful / headstrong — T
  - neurotic - stability / optimism
- at polarities,  
spectrum is  
various

↳ Turbulent ISTP = worst-case, Assertive ENFJ = best-case

Understanding your personality/allows  
↳ Know S/W      ↳ lens/perspective  
↳ Growth Plan  
↳ Relational Dynamics

Extremes:

- openness - flighty / eccentric (H), close-minded (L)
- conc - obsessive / stubborn (H), unreliable / lazy (L)
- extro - attention seeking (H), self-absorbed / aloof (L)
- agree - naive / submissive (H), combative / rude (L)
- neuro - unstable / insecure (H), oblivious / unconcerned (L)

Why we don't remember things:

- ↳ bogged down by details
  - ↳ not enough time spent
  - ↳ not actively used
  - ↳ not relevant in life
- } ⇒
- S - simplify and organize
  - E - Engage with material — recall
  - A - Apply knowledge — teach
  - R - Reference to key

diff's traits are for doubling down on what you are good at  
↳ can be used to identify weaknesses

Personal Biddle

- ↳ close to friends / others
- ↳ intimate communication
- ↳ warm / negativity

⇒ Anxiety and avoidance attachment

Coping Mechanisms

- ↳ Denial - avoid
- ↳ intellectualization - stay in head instead of feelings (avoid)
- ↳ rationalization - excuse flaws
- ↳ doubt
- ↳ projection - problems are someone else's not yours
- ↳ displacement - swap out behavior for substitute
- ↳ reaction - do opposite to rip in band
- ↳ regression - act like child
- ↳ isolation - separate thoughts and feelings

↳ Risk aversion (goalgetter)

↳ attachment for others emotions (careless)

↳ Denial in relationship

↳ involvement / independence

↳ DTCO Support, Affection, Intimacy, communication, emotional, time

↳ memory of attachment style

↳ Attachment styles:

↳ Anxious / Avoidant

↳ Big 5 desires

↳ On Love, Stable, Control, Spontaneous, Control

ISTP - NT friendships

↳ compromise on things

ISTP - NF F

↳ help each other out

ISTP - SJ

↳ respect differences

ISTP - SP

↳ embrace similarities together

Psychological bias (presentation of you are like x) can feel accurate

o Aggressiveness: Low = competition, dislike favors (E/T)

o Conscientiousness: Low = spontaneous (E/T) (S/I)

o Neuroticism: Low = stable (E/T)

o Extraversion: Low = alone, risk adverse, less social (I/E)

o Openness: prefer routine (S/N) (E/T)

Dark Triad -

↳ Machiavellianism - interested in own needs and will sacrifice others

↳ Narcissism - think highly of self

↳ Psychopathy - lack empathy and abuse others

- relation maintenance
- private commitment
- love to make others life better
- public commitment - show partner's love
- partner monitoring
- social engineer - use others to reinforce your relation
- competitor reduce

Jung

Hero:

- ↳ ideal self: drive towards self-actualization and integration of self
- ↳ courage and bravery, willingness to overcome challenges, sacrifice from greater goal, overcomes adversaries

Shadow:

- ↳ repressed or denied self
- ↳ negative or socially unacceptable traits, unconscious fears and anxieties,

Animus/Anima

- ↳ unconscious opposite gender (male)
- ↳ rationality and logic, assertive and strength

Anima

- ↳ unconscious opposite gender (female)
- ↳ Emotions and feelings, intuition and creativity

Freud:

- Ego - psyche that deals with reality. Intermediates id, moral constraints of superego and external reality.
  - ↳ id's desires in socially acceptable way
- superego - psyche dealing with moral standards and ideals. Internal standards of right and wrong.
  - ↳ strives for perfection and judges thoughts and actions of ego
- Id - basic instincts and drives (sex, aggression, primal)
  - ↳ pleasure principle, instant gratification
- Unconscious - thoughts and memories, and desires not accessible to conscious
  - ↳ influences behavior and emotions without awareness
- Subconscious - stores readily accessible information that isn't readily available but can be retrieved
  - ↳ buffer between conscious and unconscious

Sund

o collective unconscious - layer of unconscious shared between all humans (universal experience and archetypes)  
↳ influences behavior through archetypes

o Archetypes - images from collective unconscious that influence behavior

↳ self - totality of psyche, both conscious and unconscious  
↳ strive for integration of all parts

↳ persona - social facade  
↳ helps adapt to society and interact with others

↳ shadow

↳ Anima/Animus

↳ Hero

↳ wise elder - wisdom, guidance, insight

↳ inner source of knowledge, usually in a dream

↳ Great mother - nurturing, protective

↳

↳ child - innocence, potential, new beginnings

↳ potential for development

↳ trickster - mischievous that disrupts status quo

↳ brings change through unexpected behavior

↳ warrior - strength, courage, assertion

↳ confront challenges and defend others

↳ lover - passion, desire, connection

↳ intimacy, relations, union

↳ Sage - introspection

↳ truth/understanding as teacher

↳ ruler - authority, control, order

↳ leadership, responsibility, stability + structure

↳ maiden - purity, youth, development

Age, counsel, protection

intellectual truth, detachment

AI Recommendations

↳ enhance strengths, manage weaknesses of Big 5

↳ Map out hierarchical needs -

↳ identify current level and ensure same level and below are met before going above

↳ Level 1: physiological needs - human survival

↳ air, water, food, shelter, sleep, clothing

↳ Level 2: safety - personal security & stability

↳ physical safety, healthcare + healthy environment, financial security, property, law and order

↳ Level 3: love and belonging -

↳ friendship, family, intimacy, social groups

• Level 4 - esteem needs (respect, recognition, etc...)

- ↳ self-esteem (confidence in own ability)
- ↳ recognition (appreciation from others)
- ↳ status/prestige
- ↳ accomplishment of goals

• Level 5 - self-actualization - potential / growth / experiences

- ↳ self-improvement
- ↳ creativity
- ↳ problem-solving
- ↳ authenticity
- ↳ fulfillment

→ Cognitive needs

- ↳ Knowledge + understanding
- ↳ curiosity

→ Aesthetic needs

- ↳ beauty (art, nature)
- ↳ harmony

→ Self-transcendence

- ↳ connect with more
- ↳ altruism
- ↳ spirituality

Assess current needs

- ↳ Prioritize current needs, focusing lower needs
- ↳ set SMART goals
- ↳ Develop a plan
- ↳ Monitor and adjust
- ↳ seek support

## Erikson's Stages of Development

- ↳ Trust vs. Mistrust (0-4) <sup>responsive care</sup>  
↳ determines trust and security in the world
- ↳ Autonomy vs. Shame (1-3)  
↳ opportunities for curiosity  
↳ shame if parents too critical
- ↳ Initiative vs. Guilt (3-6)  
↳ support/discouragement on initiatives
- ↳ Industry vs. Inferiority (6-12)  
↳ encouraged + praised vs. ridiculed or no opportunity
- ↳ Identity vs. Role confusion (12-18)  
↳ express own values vs. conform
- ↳ Intimacy vs. Isolation (18-40)  
↳ can form relationship or cannot
- ↳ Generativity vs. Stagnation (40-65)  
↳ productive to society vs. not
- ↳ Integrity vs. Despair (65+)  
↳ reflect on life and are happy, or not

↑  
Reflect on current life and past stages — look for unresolved and how they impact you now

## Attachment Theory:

- ↳ Attachment Behaviors:  
↳ behaviors by infants to maintain proximity
- ↳ Internal working models  
↳ mental representation of things based off interactions
- ↳ Secure base  
↳ a place to explore safely
- ↳ Secure attachment  
↳ confident in providers to explore and know secure base is there  
↳ freely explores environment  
↳ may distress when caregiver leaves  
↳ seeks comfort from caregiver and receives it
- ↳ Anxious ambivalent  
↳ uncertain in caregiver and is clingy  
↳ stays close  
↳ very distressed  
↳ seeks comfort but is inconsolable

- ↳ Avoidant
  - ↳ independent and self-reliant
  - ↳ explores without seeking caregiver
  - ↳ little distress
  - ↳ ignores caregiver on return

- ↳ Disorganized
  - ↳ lack of attachment due to inconsistency
  - ↳ confused
  - ↳ confused
  - ↳ hesitant approach

- ↳ Childhood: security:
  - ↳ Emotional Regulation
  - ↳ Social Competence
  - ↳ Cognitive development

- ↳ Adolescence:
  - ↳ Identity formation
  - ↳ Peer Relationships

- ↳ Adulthood:
  - ↳ Romantic Relationships
  - ↳ Parenthood
  - ↳ mental health

- ↳ Dictated by:
  - ↳ Parental sensitivity to child's needs
  - ↳ Caregiver mental health
  - ↳ Social support
  - ↳ adjusting to child's temperament

- ↳ Be:
  - ↳ responsive
  - ↳ emotionally available
  - ↳ consistent and predictable
  - ↳ have positive interactions
  - ↳ reflect and understand own parenting style and how it affects

- ↳ fixity:
  - ↳ find new ways of relating and foster secure
  - ↳ improve communication
  - ↳ reduce negative thoughts

**Complexes** - clusters of emotionally charged things centered around a common theme

- ↳ Emotionally charged
- ↳ organized around a theme, usually in the past
- ↳ partially or fully unconscious
- ↳ trigger automatic reactions

→ **Structure:**

- ↳ core experience or memory that left lasting emotional imprint
- ↳ associated feelings or thoughts that reinforce thought
- ↳ based around an archetype

→ **causes:**

- ↳ trauma
- ↳ repetition
- ↳ external influences

results in

- o Behavioral influence
- o Emotional Reaction
- o Psychological Symptom

→ **Solved by:**

- ↳ awareness + acknowledgment
- ↳ integrate complex into conscious by finding origin and how it affects you and mitigate it
- ↳ balance psychological functions

**Cognitive behavioral therapy**

- ↳ identify, understand, and change negative thought patterns and behaviors
- ↳ all things are tied together

→ **Cognitive Model:**

- ↳ dysfunctional thinking patterns are at core of psychological issues
- ↳ changing this can change more — thought causes action

→ **Behavioral Model:**

- ↳ how behaviors are learned and maintained, they are changed through exposure, reinforcement, and trials

→ **Present-Focused**

- ↳ focus on the now instead of past

→ **Collaborative + structured:**

- ↳ collaborative between therapist and patient
- ↳ sessions are structured and goal oriented
- ↳ timed

## Steps:

- ↳ Identify challenging negative thoughts and replace them
- ↳ Increase positive and meaningful activities
- ↳ gradually expose to undesired environments in controlled fashion
- ↳ mindfulness techniques
- ↳ problem solving skills
- ↳ homework assignments

★ Need to know cognitive model + how thoughts, emotions, behaviors are interconnected

challenge thoughts via evidence, scientific reasoning, experimentation

↳ used for depression, anxiety, OCD, PTSD, eating disorder, addiction, phobias, anger management

thoughts - mental processes which we interpret world around us and shape rational, irrational, conscious, automatic behavior

emotions - feelings in response to thoughts and perceptions.  
↳ influence our behavior and reveals information of our internal states

behavior - actions resulting from thoughts and emotions and can be voluntary, involuntary, constructive, or destructive

↳ trigger - internal or external event that triggers a thought

↳ cognition - spontaneous thought occurring in response that can be habitual and positive or negative

↳ emotion - responding emotion from thought, positive or negative usually matches thought

↳ behavior - how you behave in response to emotion

↳ can create a feedback loop of reinforcing initial thought

## Self-determination Theory:

↳ determines degree of self-motivation and determined

↳ **Autonomy** - in control of own behavior and goals  
↳ acting in harmony with true self according to own values and interests

↳ **Competence** - need to feel effective in own abilities to achieve mastery.

↳ seeking out and overcoming challenges learning new things

↳ **Relatedness** - connection with others, to love and care and to be loved and cared for  
↳ friendships and bonds

## Intrinsic

↳ engaging in activity for inherent satisfaction instead of for a consequence

## Extrinsic

↳ doing something to achieve an outcome

↳ **External Regulation**

↳ behavior is driven by external rewards or punishments

↳ **Introjected Regulation**

↳ driven by internal pressures

↳ **Identified Regulation**

↳ personal goals and values

↳ **Integrated Regulation**

↳ behavior is fully assimilated with identity

## Foster Autonomy:

↳ Provide choices to give sense of control

↳ Support self-directed learning and problem solving

↳ Respect individual preferences

## Building Competence:

↳ Set proper challenges and goals

↳ Provide constructive feedback

↳ facilitate mastery

foster relatedness

- ↳ create supportive environments
- ↳ show empathy and understanding + listen
- ↳ promote inclusive practices

Ensure autonomy

- ↳ goals
- ↳ free choices / self reflect
- ↳ put in free environment
- ↳ be around supportive others

Ensure competence

- ↳ seek learning opportunities
- ↳ set incremental challenges
- ↳ seek feedback
- ↳ track progress + growth mindset

foster relatedness

- ↳ build strong relationships
- ↳ engage in community
- ↳ practice empathy and listening
- ↳ offer emotional support

balance life and work

Self sufficient:

↳ Survival, life skills, important, resourceful, responsible, discipline, preservation, pride, self-worth, strong will, Exploration, independence, retrospective, growth, mindset, prioritization, Assertion

Time management

↳ mentality, introspection, prioritization, planning, thoughtful, pragmatic, analytic, forward thinking, reasonable, time management, thorough, responsible, flexible, systematic

Diversify skillset

↳ practices diverse, life skills, proactive, learning, resourceful, curiosity, Exploration, growth, love of challenge, interesting,

Increase status:

↳ Social network, visionary, interesting, control of desire, success, entertaining, financial literacy, discipline, passion, pride, preservation, inspiration, improvisation, presentation, high standards

Create legacy:

↳ maintenance, practice, important, purpose, work ethic, provision, inspiration, success, legacy, pride, dedication, visionary, forward thinking, prioritization, positive influence, society

Become healthy

↳ mentality, mindfulness, physical, performance, dedication, fitness and health, preservation, practice, life skills,

Education

↳ Diverse, Memory, learning, curiosity, how and what, understanding, scholar

Get respect

Find happiness

↳ optimism, mentality, emotion control, self awareness, self-care, fulfillment, mindfulness, self-confidence, joy, self-love, gratitude, appreciation, pride, happiness, purpose, stoicism, transcendent, self-worth, interpersonal

Mental Health

↳ optimism, mentality, resilience, emotion control, socialization, self-awareness, emotional intelligence, self-care, prioritization, contentment, mindfulness, change, thoughtful, psychology, self-confidence, anxiety control, introspection, grounded, self-love, growth, self-worth, perseverance, strong will, pride, progress, preservation, practice, life skills,

## Control of life:

↳ responsive, maintenance, life-skills, proactive, improvises, moderation, resourceful, stoicism, risk management, purpose, course, focus, responsible, accountable, understanding, strong-will, perseverance, problem solving, discipline, independence, visionary, situational awareness, mindfulness, contentment, flexibility, prioritization, self awareness, introspection, assertion, mentality

## Social service:

↳ positive influence, socialization, amiability, interpersonal, goal oriented, emotional intelligence, social awareness, amiable love, altruism, society, humanitarian, mindfulness, kindness, respect, empathy, charisma, chirality, gentleness, considerate, conversational, caring, friendly, goodnatured, joy, patience, service, harmonious, agreeable, sympathetic, enables, inspiration, humble, generous, protector

## Self-awareness:

↳ core values, ethics, presentation, self-worth, purpose, authenticity, accountability, understanding, comfort, self-worth, virtues, self-love, grounded, anxiety control, self-confidence, psychology, analytical, respect, self-control, mindfulness, mindset, self-awareness, self-care, introspection

## Emotional Intelligence

↳ External awareness, information processing, understanding, humble, harmony, sympathetic, leadership, agreeable, communication, good natured, friendly, entertaining, conversationalist, interesting, empathy, mindfulness, humanitarian, social awareness, emotional intelligence, socialization, emotion control,

## Optimism

↳ optimism, mentality, resilience, self-awareness, visionary, contentment, analytical, psychology, goodnatured, reasonable, grounded, appreciation, gratefulness, focus, open-mindedness, extraspection, improvises,

## Mindfulness

↳ Reality, responsive, external awareness, information processing, lively, proactive, extraspection, open-mindedness, grounded, situational awareness, mindfulness, mindset, social awareness, self-awareness

## Learning Growth

↳ mindset, self-awareness, introspection, prioritization, change, thoughtful, retrospective, love of challenge, forward thinking, scholar, dedication, discipline, motivation, growth, exploration, progress, understanding, focus, open-mindedness, courage, curiosity, learning, proactive, law or why,

## Honor and virtue

↳ high standards, core values, self-worth, drive/righteous, important, moderation, preservation, strong will, virtue, goodness, good natured, moral, pragmatic, respect, thoughtfulness, society

## Self-confidence

↳ mentality, self-awareness, assertion, self-confidence, certainty, self-love, execution, self-worth, strong will, pride, courage, self-worth

## Leadership

↳ presentation, responsive, external awareness, proactive, rhetoric, inductive reasoning, risk management, extropective, authentic, honesty, responsible, accountability, understanding, trust, inspiration, humble, enable, deductive reasoning, success, motivation, time management, mentorship, leadership, execution, agreeable, harmonious, communication, dedication, business knowledge, good natured, anxiety control, friendly, relaxed, caring, considerate, ethical, morality, charisma, self-confidence, psychology, empathy, respect, thoughtful, planning, methodical, flexibility, prioritization, social awareness, visionary, emotional, intelligence, meticulous, social network, social media, emotion control, resilience, optimism, positive influence

## Problem solving / thinking

↳ ~~responsiveness~~, self-awareness, assertion, introspection, vision, prioritization, mindset, flexibility, creativity, methodical, planning, thoughtful, abstract, pragmatism, analytical, ~~retrospective~~, innovative, reasonable, problem solving, deductive reasoning, inductive reasoning, understanding, open-mindedness, extropection, curiosity, logic, urgency, proactive, information processing, responsive, law or why

## Flexibility

↳ responsive, diverse, external awareness, curiosity, open-mindedness, understanding, trust, exploration, independence, patience, change, flexibility, mindset, visionary, spontaneity

## Creativity

↳ introspective, visionary, mindset, flexibility, change, thoughtful, abstract, uniqueness, retrospective, innovative, forward thinking, scholar, exploration, creativity, deductive inductive reasoning, open-mindedness, extropection, curiosity, information processing, diverse

### responsible/accountable

- ↳ high standards, core values, ethics, maintenance, moderation, risk management, work ethics, authentic, systematic, responsible, accountability, preservation, strong will, meticulous, virtue, traditionalism, discipline, maturity, self confidence, assertive, external awareness, prioritization, imperious,

### find partner

- ↳ socialization, amiability, social network, interpersonal, self awareness, emotional intelligence, self-care, social awareness, kindness, patience, respect, empathy, psychological, physical, romance, self-confidence, charisma, uniqueness, control of desire, interesting, culture, gentleness, considerate, conversationalist, curious, entertaining, anxiety control, good natured, performance, communication, sexual, agreeable, passion, sympathetic, trust, comfort, honesty, authentic, proactive, lively, aesthetic, maintenance, presentation, intimate,

### planning:

- ↳ external awareness, proactive, deductive reasoning, extraspection, risk management, systematic, responsible, thorough, meticulous, time management, discipline, dedication, retrospective, analytical, abstract, planning, methodical, open-minded, flexible, prioritization, visionary,

### charisma and image

- ↳ emotion control, socialization, amiability, interpersonal, self-awareness, emotional intelligence, self-care, social awareness, mindfulness, empathy, psychology, physical, self-confidence, charisma, uniqueness, interesting, conversationalist, eloquent, entertaining, friendly, anxiety control, good natured, joy, communication, agreeable, sympathetic, enabler, humble, inspiration, generous, honest, authentic, extraspective, rhetoric, lively, aesthetic, responsive, presentation

### help environment.

- ↳ core values, ethics, reality, responsive, maintenance, acceptance, sciences, proactive, extraspection, purpose, preservation, inspirational, progress, problem solving, harmonious, service, nature, dedication, humble, grounded, retrospective, thoughtful, methodical, change, mindfulness, mindset, visionary, society, optimism

### Revolutionize

- ↳ positive influence, optimism, mentality, resilience, imperious, assertion, introspection, visionary, prioritization, society, humanitarian, fulfillment, change, planning, thoughtful, abstract, spontaneity, pragmatism, uniqueness, morality, innovative, modernized, forward-thinking, dedication, discipline, service, execution, motivation, strength, pride

## Great Feat

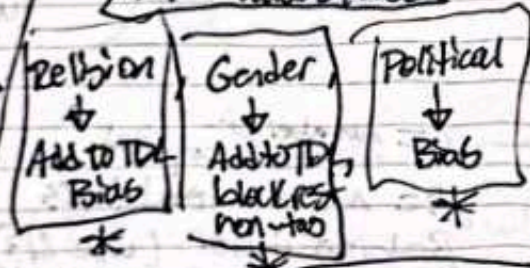

↳ high standards, practice, self-worth, proactive, improvise, memory, resourceful, work-ethic, authentic, courage, focus, prize, success, thorough, strong will, growth, passion, motivation, meticulous, perseverance, time management, execution, discipline, dedication, productive, performance, love of challenge, innovative, thoughtful, mindset, prioritization, self-care, visionary, introspection, assertion, resilience, optimism

## organized

↳ mentality, self-awareness, introspection, self-care, prioritization, mindfulness, methodical, self-control, thoughtful, patience, situational awareness, grounded, dedication, discipline, traditionalism, meticulous, professional, thorough, accountability, responsible, focus, systematic, work ethic, risk management, motivation, improvise, life skills, external awareness, maintenance, presentation, practice, core values, high standards

Unhealthy Mind - an individual's mental health processes are compromised where patterns of thinking, feeling, and behavior is detrimental

- ↳ Negative thought patterns
- ↳ cognitive distortion
- ↳ inability to manage emotions
- ↳ Unhealthy coping mechanisms
- ↳ difficulty in interpersonal relationships
- ↳ physical traits being affected
- ↳ Lack of fulfillment or motivation

↑ caused by:  
↳ Stress, negative environment, no self-care, bad coping skills

↑ solved by CBT, mindfulness, healthy lifestyle, social support

Mentally Ill - conditions that severely impair an individual's function

- ↳ debilitating symptoms preventing function
- ↳ A condition diagnosable via DSM-V
- ↳ hard time maintaining relationships
- ↳ Easy to relapse

↑ caused by genetics, chemical imbalance, psychosocial stressors, environment

↑ solutions: psychotherapy, medication, support systems

Cognitive distortions: irrational, unbiased ways of thinking that negatively influence emotions and behavior

- ↳ All or nothing (2 extremes, black and white)
- ↳ overgeneralization (illogical extrapolation)
- ↳ Mental filter (focused only on negative, no positive)
- ↳ Disqualifying positive (positive doesn't count)
- ↳ Jumping to conclusions without evidence
- ↳ Magnifying/minimizing (changing severity of situation)
- ↳ Emotional reasoning (inner results will happen off feelings)
- ↳ Should (impose unreasonable expectations with 'should')
- ↳ Labeling (assigning global, negative labels - I failed, I suck)
- ↳ Personalization (taking blame for things out of your control)
- ↳ Blaming (holding others responsible for your pain)
- ↳ Fallacy of change (believe others need to change for you to be happy)
- ↳ Heaven's reward (self-sacrifice will always be rewarded)

↑ therapy, mindfulness + acceptance, journaling, compassion

## IN Unhealth:

- I - excessive isolation, loneliness, and self-criticism
- E - overly reliant on social approval, more irritated in social
- S - overly fixated on details, OCD, hypochondria
- N - overly daydream, paranoia, fear of future
- T - overly critical and harsh, emotional suppression
- F - overly sensitive, inadequacy, prioritize others over self
- J - excessively controls, perfectionism
- P - disorganized, procrastinate

- ↳ Dominant function becomes exaggerated
- ↳ inferior function usage unhealthy
- ↳ auxiliary and tertiary function compromise — loops

## Loops

### ↳ Ti-Ni

- ↳ Overthinking and rumination, disconnected from reality, paranoia/cynicism
- aux:
  - ↳ S - sensory engagement
  - ↳ N - explore new ideas
- ↳ mindfulness + social

### ↳ Fi-Si

- ↳ Stuck in past, isolated in own experiences, over sensitive
- ↳ Journaling + physical activity

### ↳ Te-Si

- ↳ overly rigid, micromanagement, neglect of emotions
- ↳ S - reflection self for structure
- ↳ N - longterm goals and ideas for strategy
- ↳ relax + delegate

### ↳ Ni-Fe

- ↳ overly concerned with futures and possibilities
- ↳ N - objective analysis and critical thinking, idealistic, emotional exhaustion
- ↳ S - sensory
- ↳ self care + goal setting

- ↳ be self-aware, reflect, balance functions

Grips - an individual is overwhelmed by inferior function - it takes control in an exaggerated manner

- inferior:  
decreased with self
- ↳ Se - overly impulsive sensory environment (overeating, shopping, risk etc)
  - ↳ Ni - overly pessimistic, withdrawn, obsessed with fear of future
  - ↳ Fi - intense emotional outbursts, deep inadequacy/worthlessness
  - ↳ Ne - excessive anxiety of future, overwhelmed with possibilities
  - ↳ Fe - overly concerned with opinions + overly sensitive overwhelmed with needs, lonely
  - ↳ Ti - overly critical
  - ↳ Te - rigid, focused on efficiency and external validation

Shadows - unconscious functions (not yours) that can manifest

- ↳ fifth function (opposing role) - defensive manner for resistance
- ↳ sixth function (critical parent) - critical voice for criticism
- ↳ seventh function (trickster) - manipulation causing paradoxical
- ↳ eighth function (demon) - highly stressful conflict

ESTP example:  $\begin{bmatrix} Se - Ti - Ne - Fi \\ Fe - Ti - Fe - Ni \end{bmatrix} - Si - Te - Ni - Fe$

- ↳ Si(5) - fixated on past
- ↳ Ni(6) - harsh critique of new ideas
- ↳ Fi(7) - personal values to manipulate
- ↳ Te(8) - extreme self doubt, destructive thinkers

↳ Create internal conflict; you can project shadow onto others, seeing qualities they may not see

↳ self reflection, awareness, therapeutic intervention, balance 1/4 functions. shadow work

Function pairs - over reliance on dominant and auxiliary functions,

- ↳ primary function pair (1/2)
- ↳ secondary function pair (3/4)

↳ may neglect needs for other aspects

↳ when stressed, reliance on secondary pairs, neglecting their strengths

↳ can cause:

- ↳ narrow focus, rigidity (1/2)
- ↳ emotional/mental imbalance (3/4)
- ↳ neglect of development (0/4)

Imbalance among functions  
↳ causes

- ↳ cultural norms
- ↳ family dynamics
- ↳ environmental demands
- ↳ trauma and stress
- ↳ success validation
- ↳ fear of vulnerability

↓  
consequences

- ↳ anxiety, stress, depression, burnout, communication issues, lack of connection, conflict and isolation, not adaptability, missed opportunities, stagnation

Components influence

- ↳ chemistry
- ↳ stress response
- ↳ emotional regulation
- ↳ development stage
- ↳ motivational drive
- ↳ empathy
- ↳ information processing
- ↳ decision making

• integration - bringing personality into a whole  
• differentiation - developing ~~separate~~ distinct parts of personality

• diff

- ↳ understand your cognitive functions and how they influence your behavior
- ↳ deliberately work on lesser used functions
- ↳ explore shadow
- ↳ results in better self-awareness, problem solving, resilience, relationships

← In context of Enneagram?

• int

- ↳ balance opposing functions
- ↳ harmonize conscious and unconscious
- ↳ accept all parts of self, value them and integrate cohesively
- ↳ results in psychological health, inner harmony, greater authenticity, enhanced effectiveness

## Diff/Int in Eriqson

- ↳ Understand each stage's motivations and fears
- ↳ recognize behavioral patterns at each stage
- ↳ develop self-awareness at each stage
- ↳ balance wants and instincts

## Int in Em

- ↳ move toward growth point of next stage
- ↳ harmonize own aspect with possible of growth point
- ↳ embrace healthy traits
- ↳ reduce fixations and compulsions

## Disintegration in Em

- ↳ move towards unhealthy traits
- ↳ gain attitudes under stress

Narcosis - mental condition characterized by emotional distress and unconscious conflict - imbalance that needs addressal

- ↳ internal conflict between functions
- ↳ has symptoms
- ↳ lack of harmony in psyche due to issues
- ↳ symbols in unconscious that needs addressal
- ↳ repression, unresolved childhood issues, life transitional, lack of individuation

psychosis - disconnection from society

- ↳ hallucinations - sensory
- ↳ delusions
  - ↳ others are plotting
  - ↳ exceptionally talented
  - ↳ someone is in love with them
  - ↳ physically ill
  - ↳ environment was are directed at them
- ↳ disorganized thought or motor

Self awareness  
→ related to function (G)  
↓  
feedback

## MBTI Step II?

Recommendations

- ↳ Do a mental health screening
- ↳ refer to help
- ↳ focus on stabilization first
- ↳ focus on dominant function in low stress
- ↳ then develop auxiliary then sneak in 3/4
- ↳ regular check-ins

ensure dominant function is mature

See if symptoms are low-standing?

is behavior consistent in all aspects of life

to see if it is useful:

- ↳ collect background information
- ↳ explore current concerns

Brief psychiatric rating scale

Example of cross-referencing  
different life stages

Psychoplastic Cross References:

↳ Te - organized, efficient, goal-oriented

↳ X - low OED, burnout

↳ always focused on efficiency, even when not stressed

↳ do you find fulfillment or is it of anxiety or compulsion?

↳ excessive or rigid?

↳ TI - solitary activities, deeply logical analysis

↳ X - social anxiety, depression

↳ are you avoiding social because drain or discomfort/fear

↳ you always been this analytical or recently?

↳ not withdrawing due to curiosity

↳ Fe - highly focused on others needs and emotions (desire to accommodate)

↳ X - codependency, low self-esteem

↳ how do you balance your own needs with helping others? Do

you feel guilty helping yourself

↳ do you love helping others or feel compelled to do so to avoid

conflict or win approval

↳ Fi - deep personal values, strong emotional experiences

↳ X - depression, avoidant personality

↳ have you always valued your values or does isolation make you

↳ do you avoid social because meaningless or fear?

↳ Se - high engagement with senses

↳ X - ADHD, substance abuse

↳ do you find it hard to focus? Substance abuse?

↳ do you engage in risky situations?

↳ SI - preference for familiarity, tradition, detail recall past

X Co PTSD, OCD

↳ Do you have historic trauma that inhibit new experiences?

↳ Do you feel constraints when routines are disrupted?

CANE - enjoy brain storming, connecting things, explore future possibilities

X Co Bipolar, anxiety

↳ Do you experience extreme energy fluctuations or is it constant?

↳ Do you feel anxious exploring things or is it stimulating?

↳ NI - focused on abstract concepts, deep insights

↳ Schizophrenia, depression

↳ Do your ideas seem realistic to others or are they disconnected from reality?

↳ Do you feel energized by your deep thinking or does it make you feel more withdrawn?

↳ Do you feel more withdrawn?

Development of dominant function!

↳ Child - what activities did you gravitate towards?

↳ Adolescence - How did you approach learning and social interactions?

↳ Adult: How do you handle daily tasks and challenges?

Auxiliary:

↳ How did you supplement play?

↳ How do you complement interest?

↳ Secondary skills to balance main strengths

Testing:

↳ Occasional signs of exploration

↳ New ways of thinking/behaving?

↳ Do you appreciate new things now?

Interferer:

↳ How did you act/break?

↳ Stress?

↳ How does stress now?

Te

- ↳ Childhood: organize toys, lead games, set up rules
- ↳ Adolescence: leadership roles, organize, argue (efficiency, competence, goals)
- ↳ Adults: project management, strategic planning, leadership

Ti

- ↳ C: building, puzzles, solitary puzzles, why and how
- ↳ Coa: science, study, analysis, logic
- ↳ Coa: research, problem solving, technical analysis, interdependence

Fi

- ↳ Cooperation, helping others, concern for others
- ↳ Team sports, clubs, volunteering, peacekeeping
- ↳ HR, social events, community service, empathy, teamwork

Fi

- ↳ Imaginative play, telling stories, off personal experience, sensitive, intuitive
- ↳ Art drama, parents, authenticity
- ↳ Counselor, art, personal growth, cause advocate

Se

- ↳ Sports, outdoors, hands-on, spontaneous, adventures
- ↳ Sports, physical, spontaneous, adventures
- ↳ Live events, outdoors, dynamic environment, unstructured

St

- ↳ Collects, saves, enjoys familiarity, traditions, consistency
- ↳ History, established holidays, retrospective
- ↳ Archiving, detailed notes, traditional, procedural

Ne

- ↳ Imaginative play, exploring, experiments, inventive
- ↳ Creative, exploring things, diverse
- ↳ Entrepreneurial, innovative, proactive, connecting, future possibilities

Ni

- ↳ Daydreams, symbolic, abstract, deep meanings
- ↳ Philosophical, strategic, deep meanings
- ↳ Plants, forests, future

Aware resilience and healthy coping mechanisms

Growth after storms

### Help unwell individuals:

- ↳ Ensure privacy
- ↳ Be private
- ↳ active listening
- ↳ encourage wellbeing
- ↳ offer reassurance
- ↳ set boundaries
- ↳ validate feelings
- ↳ reflect and clarify
- ↳ offer reassurance
- ↳ check in regularly
- ↳ be available
- ↳ seek own help if needed
- ↳ Be patient
- ↳ avoid judgement
- ↳ avoid overstimulation

### Mental unwellness effects

- ↳ reduced motivation/energy
- ↳ impaired cognition
- ↳ emotional instability
- ↳ withdrawal
- ↳ negative self perception

↳ happiness  
tragedy

### Learning

- ↳ reduces stigma
- ↳ see red flags
- ↳ self-awareness
- ↳ tools
- ↳ interpersonal support
- ↳ motivation/goals
- ↳ growth
- ↳ self-help

↳ cognitive restructuring
